Aloe Series

Furniture for intensive-use healthcare environments.

healthcentric™
medical grade seating

SHARP

healtHcentric is the only seating manufacturer focused on creating durable, easy-to-clean and affordable seating solutions for demanding, intensive-use environments that aid in infection prevention.

The ALOE SERIES is ideal for use in waiting rooms, patient rooms, examination rooms and treatment areas.

The importance of sanitation cannot be understated in the healthcare environment. Keeping chairs, tables and public areas clean is essential, and cleanability is at the heart of the Aloe series. All healtHcentric seating is constructed using materials that are non-porous and that have no exposed wooden components. Aloe is designed with a clean-out feature between the seat and the back to allow liquid or other debris to fall to the floor for easy clean up. Seams are positioned away from the user to help keep out pathogens and moisture.

Superior Infection Control

When Aloe is constructed using the IC+™ Upholstery Solution* with seamless sealed seats and our unique clip system, Aloe not only meets but exceeds healthcare needs and standards. Most importantly, Aloe series furniture is designed to be durable, long-lasting and easy-to-clean. With IC+ Upholstery Solution, the Aloe series becomes completely non-porous and seamless, making microbial growth virtually non-existent. IC+ stands up to the rigorous use of hospital-grade cleaners and disinfectants, making the Aloe series a perfect choice for high traffic areas.

Aloe
Guest & Patient Chairs

Seating designed for function, durability and comfort.

Patient care areas have a wide range of needs. Patients and guests want comfort and familiarity, while staff require functionality and efficiency.

Constructed with a steel frame, Aloe seats and backs offer exceptional comfort with high resilient foam for long lasting support and no bottoming.

The molded seat foam is contoured on the sides and has a waterfall front edge to help minimize pressure on the ischial tuberosities *(the seating bones)*, legs and veins.

Features

1. Available in 3 seat sizes – 21", 24" and 30", and 2 back heights – 16.5" and 25.75" Weight capacity: 21" – 350 lbs., 24" – 450 lbs., 30" – 750 lbs. Motion back available.
2. Patented adjustable headrest with three pivot points providing seven vertical inches of infinite headrest adjustment for maximum head and neck support. *(Optional on Patient Chair)*
3. Closed arm option.
4. Removable seat option

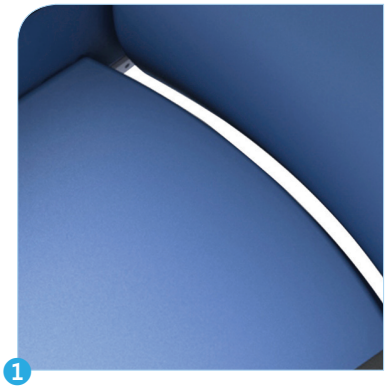
Aloe Features



1

Everything you need in your healthcare facility.

1. CLEAN OUT FEATURE between the seat and back allows liquid and debris to fall to the floor for easy clean up.
2. ALL-STEEL FRAME constructed with durable metal–to–metal connections, enhancing durability and ease of cleaning.
3. CONTOURED BACK provides support to the patient while reducing strain and stress on the body.
4. ERGONOMIC EGRESS ARMS offer cushioned comfort and support to aid in getting in and out of the chair.
5. WATERFALL FRONT edge helps minimize pressure on seat bones, legs and veins.
6. WALL-SAVER FRAME keeps the backrest away from the wall to prevent damage and wear to both the chairs and the wall surface.
7. 18" SEAT HEIGHT for ultimate comfort and safety.
8. FIELD REPLACEABLE components.

REMOVABLE SEAT CLIP SYSTEM

1

An impressive array of options to meet your particular needs.

1. REMOVABLE SEAT CLIP SYSTEM healtHcentric's proprietary removable seat clip system allows the seat pan to be easily removed, without tools, and to be completely cleaned, including the underside, seat clips and frame. Available on all Aloe Series chairs, this system is effective, simple and extremely useful.
2. IC+ UPHOLSTERY SOLUTION A highly durable, puncture and tear resistant upholstery solution that forms a seamless moisture-proof barrier which prevents the ingress of fluids, pathogens and bed bugs, and stands up to the toughest hospital-grade cleaners and disinfectants.
3. EXPOSED BRACKET DESIGN allows the backrest to be completely sealed *(When upholstered in IC+ Upholstery Solution).*
4. ADJUSTABLE HEADREST *(Aloe Patient chairs only).*
5. REMOVABLE COVERS for backs, seats and arms.
6. MOTION PIVOT BACK available for 21" and 24" chairs *(Aloe Patient and Guest chairs only).*
7. CLOSED ARM PANEL for pleasing aesthetics and additional comfort.
8. REAR CASTERS allow ease of movement for cleaning *(Aloe Patient chairs only).*
9. AVAILABLE FRAME COLORS:

White | Black | Grey | Brown | Silver

Aloe
Multiple Seating & Tables

Designed to maximize space.

Aloe Multiple Seating can be arranged in many different ways making it easy to optimize even the smallest spaces.

Easy to install and reconfigure, the only limitation to the number of chairs that can be ganged together is the size of the room itself. Shared arms save space and money and reduces the surface that needs to be cleaned.

When used with one of the six styles of linking tables, the chairs can be linked into an even wider variety of configurations.

Aloe
Sleeper Chairs

2

The most intuitive sleeper chairs on the market.

There are occasions when patient's guests require somewhere to sit and sleep. Aloe Sleeper Chairs are perfect in these situations.

A favorite with healthcare staff, the Aloe Sleeper Chair effortlessly converts from a chair into a bed. With no mechanical parts, its intuitive design and easy handling means anyone can open and close it without instruction or assistance. Simple to clean, Aloe Sleeper Chairs are constructed from one solid piece of metal, reducing the need for maintenance and repairs.

Easy to use, clean and maintain, Aloe Sleeper Chairs are constructed from one solid piece of metal, reducing the need for maintenance and repairs. The Aloe Sleeper Chairs can be upholstered in IC+™ Upholstery Solution on the back, seat, and kick plate to offer the most durable, cleanable and impermeable medical-grade surface.

Features

- Designed for cleanability
- Intuitive conversion
- No mechanism
- Locking casters
- Wall-saver design
- Replaceable parts

1 Aloe Sleeper Club Chair
Available in width range of 31"-39"
Weight capacity: 750 lbs. (Bariatric-friendly)

2 Aloe Sleeper Chair.
Available in width range of 28"-36"
Weight capacity: 750 lbs. (Bariatric-friendly)

Style meets function.

The Aloe Club Chair version combines the ease of use and intelligent design of the Aloe Sleeper Chair with stylish arms that create a relaxing and warm healthcare atmosphere.

Aloe
Hip Chair

Specialized support and comfort.

The Aloe Hip Chair design is based on physiotherapist recommended characteristics for the ideal seat.

A firm cushion ensures the knees remain lower than the hips, a firm back and arm support to aid in getting in and out of the chair and a step to ensure the hip never bends more than 90 degrees.

A large footprint ensures maximum stability while providing a higher seat for ease of mobility. The IC+ coated step is designed to allow the feet to rest flat and provide stability.

Features

1. Aloe Hip Chairs are available in 21" and 24" frame widths.
   Weight capacity: 21" 350 lbs., 24" 450 lbs.
   Mid back and high back options available.

Aloe
Bariatric Chair

Fit properly. Fit every body.

Our Bariatric Chair offers a 30" wide frame and is warranted for a 750 lbs. active weight capacity.

The generous dimensions provide a comfortable and safe chair that fits unique sizes and body shapes.

Bariatric Chairs can be ganged with other Aloe chairs for a seamless look and feel.

Important surface characteristics to consider when choosing healthcare seating

Characteristic	Rationale	healtHcentric Seating
Durability	• Furnishings should be easy to maintain and repair. • Fabrics that are torn allow for entry of microorganisms and cannot be properly cleaned. • Items that are scratched or chipped allow for accumulation of microorganisms and are more difficult to clean and disinfect.	• IC+ Upholstery Solution, used exclusively on our seating solutions is 9-10 times more durable than vinyl and is PVC-free, meaning it won't dry-out and crack. See page 14 for full details about IC+.
Cleanability	• Furnishings must be able to withstand cleaning and should be compatible with hospital-grade detergents, cleaners and disinfectants. • Upholstered furniture must be covered with fabrics that are fluid-resistant and non-porous	• The availability of IC+ Upholstery Solution, the most durable, cleanable and impermeable upholstery solution available. • Proprietary removable seat "clip system" allows the seat pan to be easily removed without tools, promoting cleanability. • Seating designed with ample clean out space between the seat and back.
Inability to support microbial growth	• Materials such as fabric and wood that hold moisture are more likely to support microbial growth. • Materials such as metal and hard plastics are less likely to support microbial growth. • Wet organic substrates (e.g. wood) should be avoided.	• healtHcentric seating is constructed using materials ideal for healthcare environments meaning no porous materials or exposed wood is used.
Surface porosity	• Microorganisms have been shown to survive on porous fabrics such as cotton, cotton terry, nylon and polyester, and on plastics which are considered porous substrates. • Porous upholstered furniture should not be used in public areas if the spread of infection is at all a concern.	• IC+ Upholstery Solution is a coating technology specifically formulated for the healthcare industry to prevent the spread of infection through its non-porous surface.
Absence of seams	• Seams trap bacteria and are difficult areas to clean	• IC+ can be made seamless and by doing so eliminates the opportunity for pathogens to grow and prevent bed bug infestations.

ALOE
for Behavioral Health

Ideal for intensive use applications and designed with patient and caregiver in mind.

Options
for Behavioral Health

The Aloe series is a versatile seating line that provides intensive use options that exceed the very specific demands of behavioral health environments. With the safety and well-being of the patient and caregiver in mind, a wide variety of options are tailored to solve the unique challenges of behavioral health settings.

1. IC+ UPHOLSTERY SOLUTION to completely seal cushions and eliminate seams to prevent concealing items.
2. TAMPER–RESISTANT FASTENERS to safely secure seat and back.
3. ADDED CONCEALED WEIGHT for reduced mobility.
4. CLOSED ARM PANELS for a pleasing aesthetic and to reduce the risk of injury.
5. METAL SLED BASE for added support and weight.
6. FLOOR MOUNTING BRACKETS to fully anchor in place.
7. TAMPER-RESISTANT GLIDES that cannot be removed.
8. HARD PLASTIC ARMS for greater pick resistance.
9. SECURITY SEAT PAN with no exposed staples.

BEHAVIORAL HEALTH OPTIONS AVAILABLE FOR:

- Guest seating
- Patient seating
- Hip / Bariatric chairs

Aloe made tougher with

IC+™ Upholstery Solution

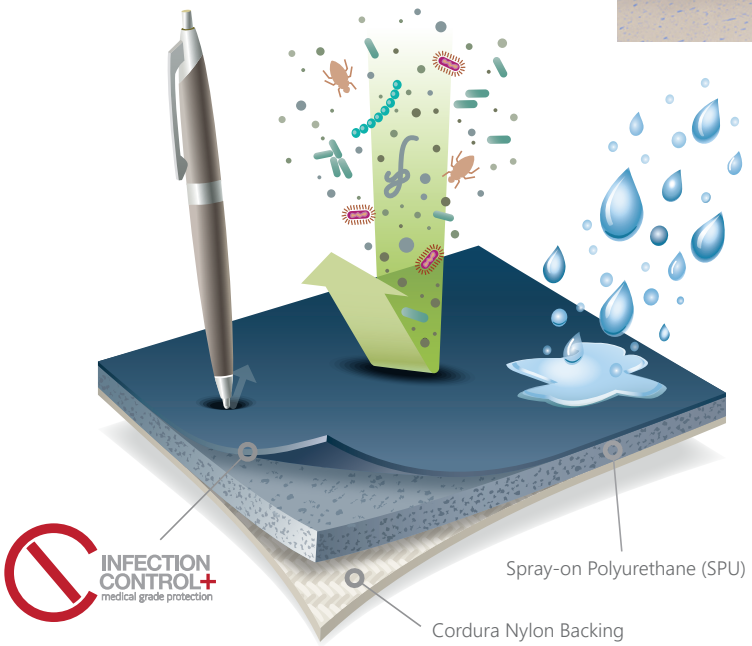
Chairs that are cracked or torn are an infection control hazard. Specifying the Aloe series in IC+ is an asset to your healthcare facility.

Proprietary to healtHcentric, IC+ Upholstery Solution* is a breakthrough technology specially formulated for the healthcare industry to provide the most durable, cleanable and impermeable medical-grade surface available. Pathogens, fluids and bed bugs stay out because IC+ is non-porous, seamless and forms a completely sealed moisture-free barrier that makes microbial growth virtually non-existent.

IC+ has an abrasion rating of 1,000,000 double rubs and is PVC- and latex-free while guaranteed not to crack, puncture or tear for 10 years. IC+ is strong enough to stand up to any hospital-grade cleaner or disinfectant and has been tested to be 750% more resistant to puncturing and 1000% more resistant to tearing than common hospital-grade vinyl.

The IC+ Upholstery Solution can be used on all healtHcentric seating and is ideal for emergency rooms, operating rooms and other high traffic patient areas.

+ Puncture and tear resistant
+ Sealed and seamless
+ Hospital-grade cleaning agent tough
+ Non-porous
+ Guaranteed not to crack
+ Bed bug proof
+ PVC- and latex-free
+ GREENGUARD® certified
+ 10 year warranty
+ CAL 133 compliant



* Patent pending.

SUPERIOR PERFORMANCE RESULTS

"In an independent laboratory study it was proven that, when used in tandem with hospital grade cleaners, it is possible to remove 98.68% of the microorganisms from the IC+ Upholstery Solution."
