

Infection Control with IC+

The most durable, cleanable and impermeable
medical-grade surface available.

healthcentric™
medical grade seating

Superior Infection Control with IC+

Proprietary to healthCentric, IC+™ Upholstery Solution* is a breakthrough upholstery technology specifically formulated for the healthcare industry to provide the most durable, cleanable and impermeable medical-grade surface available.

Pathogens, fluids and bed bugs stay out because IC+ is non-porous, seamless and forms a completely sealed moisture-free barrier that makes microbial growth virtually non-existent. IC+ is strong enough to stand up to all hospital-grade cleaners and disinfectants, allowing cleaning staff to effectively remove the toughest pathogens from the surface of the chairs in high traffic patient areas.

+ Puncture and tear resistant

IC+ resists tears, punctures and general abuse that furniture takes in most high traffic facilities. In puncture and tear tests, IC+ proved to be up to 10 times more durable than hospital-grade vinyl.

+ Sealed and seamless

IC+ is non-porous, and has an impermeable structure that forms a strong barrier against fluids, dirt, bed bugs and pathogens to provide the ultimate infection control surface.

+ Superior cleanability

Our unique patented under-seat clip system allows for easy and thorough cleaning and disinfecting – no tools required.

+ Hospital-grade cleaning agent tough

IC+ has been formulated to withstand the most common hospital-grade cleaning and disinfecting agents such as Rescue, CaviCide, Wex-Cide, Virox 5 and bleach.

+ No off-gassing – GREENGUARD® certified

PVC- and latex-free and low VOC's means healthier indoor environments for staff, patients and visitors.

+ Exceeds 1,000,000 double rubs

IC+ offers a high abrasion rating and is available in a wide variety of colors that seamlessly blend into any healthcare environment.

+ 10 year warranty

IC+ protects your investment and helps stretch budget dollars with a 10 year guarantee against tears, punctures and cracks.

+ CAL 133 compliant

medical grade seating

Aloe for Behavioral Health

Ideal for intensive use applications and designed with patient and caregiver in mind.

health**H**centric™
medical grade seating

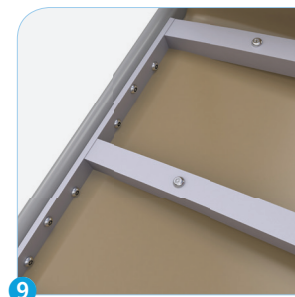

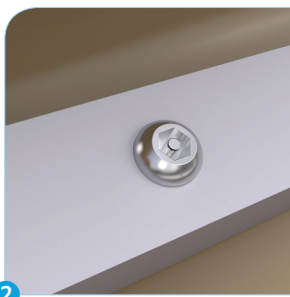

Options for behavioral health

The Aloe series is a versatile seating line that provides intensive use options that exceed the very specific demands of behavioral health environments. With the safety and well-being of the patient and caregiver in mind, a wide variety of options are tailored to solve the unique challenges of behavioral health settings.

- 1 **IC+ UPHOLSTERY SOLUTION** to completely seal cushions and eliminate seams to prevent concealing items.
- 2 **TAMPER-RESISTANT FASTENERS** to safely secure seat and back.
- 3 **ADDED CONCEALED WEIGHT** for reduced mobility.
- 4 **CLOSED ARM PANELS** for a pleasing aesthetic and to reduce the risk of injury.
- 5 **METAL SLED BASE** for added support and weight.
- 6 **FLOOR MOUNTING BRACKETS** to fully anchor in place.
- 7 **TAMPER-RESISTANT GLIDES** that cannot be removed.
- 8 **HARD PLASTIC ARMS** for greater pick resistance.
- 9 **SECURITY SEAT PAN** with no exposed staples.

BEHAVIORAL HEALTH OPTIONS AVAILABLE FOR:

- Guest seating
- Patient seating
- Hip / Bariatric chairs

BRALOE BEHAVIORAL

healthcentric™
medical grade seating

Aloe Hip Chairs

Designed to meet the needs
of orthopedic patients.

health**H**centric™
medical grade seating

Assists the patient to sit and stand with minimal stress.

Aloe Hip Chairs are designed to meet the needs of orthopedic patients.

With a seat height of 24.5 inches, the design allows a hip flexion of less than 90 degrees while assisting the patient to sit and stand with minimal stress on the hip joints. The built in foot bar supports the patient getting in and out of the chair, and provides a place to rest their feet. The foot bar has a durable non-slip IC+ coating. Available in 21" and 24" widths, Aloe Hip Chairs are made with high resilient foam offering exceptional comfort and firm support, meeting the ergonomic requirements.

healthCentric chairs can be upholstered in IC+, which allows the chair to be completely cleaned and disinfected.

Superior Infection Control

Proprietary to healthCentric, IC+™ Upholstery Solution* is a breakthrough technology specially formulated for the healthcare industry. Providing durability where it matters most, IC+ has a superior abrasion rating of 1,000,000 double rubs while guaranteed not to crack, puncture or tear for 10 years.

- + Puncture and tear resistant
- + Sealed and seamless
- + Hospital-grade cleaning agent tough†
- + Non-porous
- + Guaranteed not to crack
- + Bed bug proof
- + PVC- and latex-free
- + GREENGUARD® certified
- + 10 year warranty
- + CAL 133 compliant

1

2

1 Clip system option - Unique to healthCentric, the removable seat clip system ensures ease of cleanability without compromising support or patient safety. The seat is quickly and safely removed. This allows for the entire seat pan to be cleaned, including the underside of the seat, seat clips and support bars.

2 External back bracket option - The Aloe exposed bracket design allows the backrest to be completely sealed when upholstered in IC+. Ideal for areas where infection control and cleanability is essential.

Features

Backrest

- Fully upholstered guest backrest (21"w or 24"w by 17 ¾"h)
- Fully upholstered patient backrest (21"w or 24"w by 27"h)

Seat

- IC+ upholstered seat with dual density molded polyurethane foam
- Seat Pan - 19"d

Frame

- 12 gauge steel frame with metal-to-metal connections
- Large footprint for stability
- Wall saver design
- 4 - ¼" glides
- IC+ step

Options

- External back brackets
- Frame options
- Clip system on seat pan
- Arm options
- Caster and glide options
- IC+ step color options

Warranty

LIFETIME°

healthCentric™
medical grade seating

healthCentric **Utility** Shelf™

A convenient, multi-purpose
touch down surface.

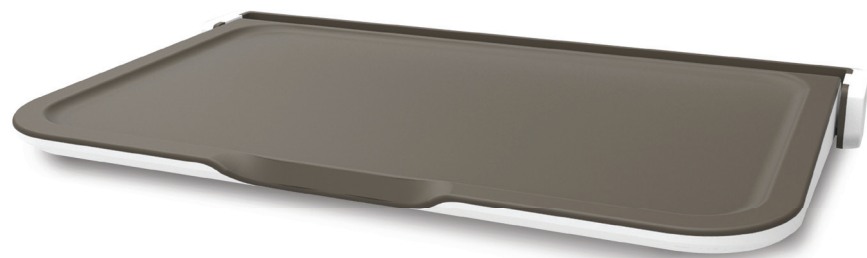

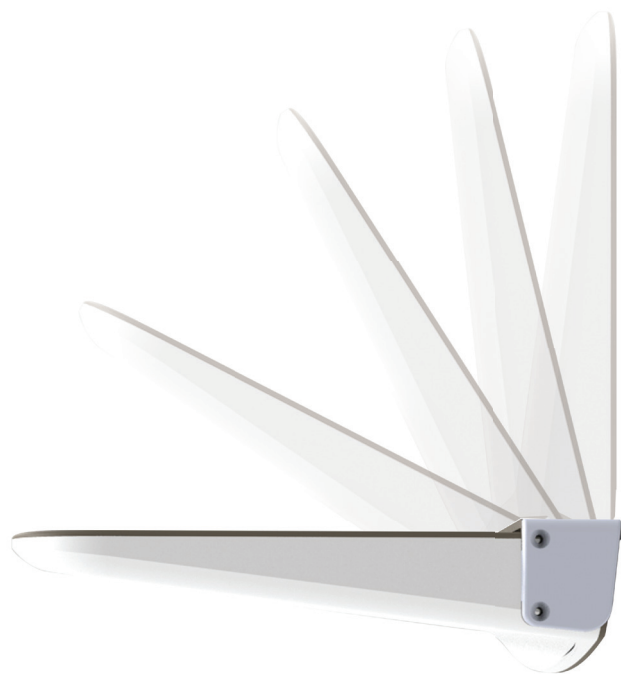

health**H**centric™
medical grade seating

Charting and hand hygiene made easier with this multi-purpose unit. A convenient, clutter free solution.

The healthHcentric Utility Shelf™ was designed in collaboration with an acute care hospital to create a convenient solution for hospital staff to use as a multi-purpose touch down surface – ideal for hallways, patient rooms and laboratories.

The sleek, user friendly design provides staff with a convenient surface for charting or to place items temporarily and can be located next to hand sanitizing dispensers either in or outside patient rooms.

The shelf easily opens with your forearm or hand, to reveal a non-slip surface that fits most standard size food trays or clipboards and holds up to 120 lbs. When in the closed position, the patent pending, low profile healthHcentric Utility Shelf does not protrude past standard handrails posing no risk to patients and staff.

healthHcentric
Utility Shelf™

Features

- Hands free opening when your hands are full or contaminated.
- Optimal size - fits most standard food service trays or clipboards.
- Weighted to hold up to 120 lbs
- No sharp edges to catch skin or clothing.
- Designed with our patented damper system that stands up to continuous use.

Specifications

Dimensions

- Shelf depth - 15 ½"
- Shelf width - 22"
- Protrudes from wall when in:
closed position - 3 ½"
open position - 15 ¾"

Weight

- 10 ½ lbs

Warranty

5 years

- Can easily handle weights up to 120 lbs under normal usage, subject to wall structure and wall anchor capacity.

BRHANDHSHELF

IC+ Anti-Fatigue Mats

Reduce fatigue
throughout the workday.

Ideal for standing work stations, pharmacies, laboratories and operating rooms.

IC+ Anti Fatigue Mats are designed to reduce fatigue that is caused by standing for long periods on hard surfaces. The IC+ surface allows mats to be easily cleaned and disinfected on site with hospital-grade cleaning agents[†]. IC+ Anti Fatigue Mats are designed to help reduce stress placed on the feet, knees and back and provide a highly durable and impermeable solution that completely seals the surface with no catch points, ensuring no water or other chemicals are absorbed.

Companion Mat

Small enough to be easily transported, yet large enough to provide maximum comfort and support, the IC+ Companion Mat offers all the benefits of IC+ with the convenience of a transport handle, providing on-the-go functionality.

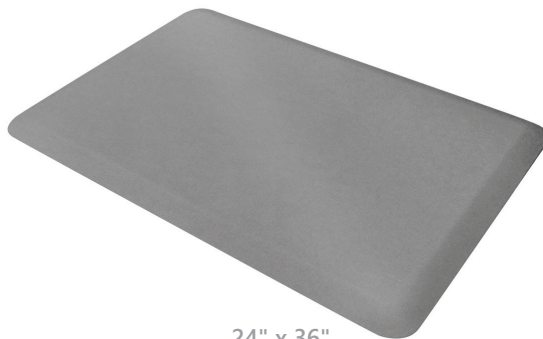

Superior Infection Control

Proprietary to healthCentric, IC+™ is a breakthrough technology specially formulated for the healthcare industry to provide the most durable, cleanable and impermeable medical-grade surface available. Pathogens stay out because IC+ is non-porous and forms a completely sealed moisture-free barrier that makes microbial growth virtually non-existent and will not crack or degrade from continuous cleaning.

- + Puncture and tear resistant
- + Hospital-grade cleaning agent tough[†]
- + Non-porous
- + Guaranteed not to crack
- + PVC- and latex-free
- + No off-gassing - GREENGUARD® certified
- + 10 year warranty

Companion Mat

24" x 36"

Features

- Anti-slip protection
- Supports the entire foot surface (*no wobbling or sinking from shoes*)
- No-trip beveled edge (*will not curl*)
- Easy to clean and disinfect on site
- Stands up to all hospital-grade cleaning agents

medical grade seating

upCentric shown with
stainless steel tabletop

upCentric™

Sit down. Stand up.
A healthy way to work.

health**H**centric™
medical grade seating

Sturdy design. Easy to clean. Chemical-resistant.

The upCentric™ allows workers to easily alternate between seated and standing positions throughout the work day to reduce backaches and pains, reduce stress and tension and to improve circulation throughout the body.

When you need to specify a surface that is resistant to the harshest of chemicals, abrasive materials and other surface stresses – but with the health and productivity benefits of a height adjustable table – upCentric 2-Leg Stainless Steel Height Adjustable Table answers the challenge.

Specifically designed for highly corrosive environments, the 16 gauge 316 stainless steel tabletop with orbital finish provides exceptional chemical resistance than type 304 stainless steel and is considerably more resistant to solutions of sulphuric acid, chlorides, bromides, iodides and fatty acids at high temperature. The upCentric stainless steel tabletop also features a marine edge to prevent liquids from running off the tabletop.

Specifications

up-2L Frame Dimensions

- Height range: 23 ½"-50"
- Width range: 46"-77"
- Frame depth: 29 ½" (23 ¾")*

Height Adjustment Controls

- Digital height display
- 4 position memory

Frame

- Sturdy steel construction
- Durable black or silver powder coat finish

Travel Speed

- 1.6" per second

Energy

- Standby power draw: 0.06W
- Max power draw: 30W
- Sound level: 39dB
- Power cord length: 2m

Weight Capacity

- Up to 300 lbs

Stainless Steel Tabletop

- Chemical-resistant 16 gauge 316 stainless steel tabletop with orbital finish
- Marine edge to contain spills
- Fully sealed MDF core with high pressure laminate on the underside

HÅG

Capisco®

ergoCentric Seating Systems is the exclusive distributor
of Scandinavian Business Seating products in Canada.

health**H**centric™
medical grade seating

Essential for sonography and patient care.

HÅG Capisco responds intuitively to the body's natural movements and provides unlimited possibilities for variation of the seated posture.

The unique shape of the backrest provides perfect support in numerous sitting positions and is made for greater freedom of movement, variation and natural sitting positions. The saddle seat can be adjusted between low and high working positions, all the way up to standing, enabling you to be more dynamic in your movements. Often referred to as the "Sonographer's Chair", the backrest design provides full truck and forearm support when seated backwards, and full support for the arm when seated sideways.

HÅG StepUp®

HÅG Capisco shown with optional HÅG Foot Ring
Design: Peter Opsvik. Patent and design protected.

A solid lightweight.

The HÅG Conventio Wing is a dynamic chair that is specially designed for meetings and conferences. The integrated rocking mechanism inspires movement and variation, improving the ability to stay alert and concentrated in long meetings.

Constructed from lightweight materials, recycled automobile bumpers and plastic household waste bottles, the wing shape back gives the chair a fresh shape that can withstand heavy use. The HÅG Conventio Wing is self-stabilizing on uneven ground and is never unstable when sitting. Simple maintenance makes the chair well suited as a general purpose chair for conferences, schools, universities, libraries, canteens, cafés and hotels.

Design: Peter Opsvik. Patent and design protected.
